

Best Practices of School

We provide training to all age groups in the field of sports during assembly time. Whereas in Performing Arts (Kathak) and Taekwondo training is given every day after school. A good exposure is given to both staff and students during morning assembly where they share moral stories, anecdotes and views setting a platform to develop communication skills.

We also have a counselling department consisting of a full-time counsellor and a special educator. The department effectively helps in managing students' behaviour, academic performance, decision making and choosing the right career. Many career counselling, skill and personality development workshops and seminars are conducted both for students and teachers.

Our school library and librarian is a member of IASL.

Exchange programmes are also conducted in the school to groom the personality of our students. The school has been awarded the British Council International School award from 2018 to 2022.
