

OUR JOURNEY OF INTERNATIONAL DIMENSION IN SCHOOL (IDS)

TOURISM AND EDUCATION

ACTIVITY 1A: Online Orientation Session: TOURISM AND EDUCATION

Participating Class(es): IX – X

Students were introduced with the concept of sectors of economy through an online PPT presentation on tourism and education of different countries and were taught that tourism was not just being limited to a leisure activity but as a source of business to earn livelihood. Its role not only benefits any one sector of economy but many tertiary industries like transportation services, lodging, entertainment venues etc. It also impacts education and institutions, helps in generating employment opportunities, enhancing National revenue and increasing the pace of development of the economy. In this interactive session the students were explained the meaning and types of tourism, they were told about famous tourist attractions, educational institutions with special reference to countries like USA, Finland, Singapore and India. They were also highlighted with the role and significant contribution of tourism in improving the standard of living of people and development of various sectors of economy.
