

OUR JOURNEY OF INTERNATIONAL DIMENSION IN SCHOOL (IDS)

COSY HOMES

ACTIVITY 2 : Collage Making

Participating Class(es): II

Online Collage Making Activity was conducted for Class II in which around 40 students participated. The topic was introduced and explained to them through Power Point Presentation. Students were able to recognise and identify the differences between the traditional houses found in India, Canada, South Africa and Indonesia based on structure, shape and materials used to build. Students developed the positive temperament towards the need of houses as a place of comfort. They collected and sorted pictures of different houses to make collage. Students were able to describe pictures like naming them using specific terms used for those houses like - Igloo, Rondavel, Honai and Hut.
