

## Tour and Trips (Session 2022-23)

### EXPANDING OUR WORLD VIEW

When learning is shifted to a real-life situation it becomes more powerful. In order to prepare students effectively for life we give them memorable experiences by embarking on educational tours and submerging them into different experiences. It is a perspective that cannot be taught, only experienced for oneself.

Going to historical landmarks and important places and getting the opportunity to visualize, experience and discuss the topics studied in classes.
